For this event we'd like to encourage players to choose a 1000pt themed when assembling their forces, choosing an army to represent a specific period or battle (a reinforced platoon from Johnny Frost's Battalion at Arnhem - or maybe a zug from the 21st Panzer Division in North Africa, 1941). But if all you want is a force that looks right for the time and place for your chosen nation, that's fantastic too. If historical research isn't your strong suit, then simply choose a theatre selector from one of the books and use that as a guideline. Remember, this is aimed at improving everyone's enjoyment: it's not meant to be a chore!

This is an open event, so forces will likely be mismatched historically during most games, but this shouldn't detract from the pleasure of facing interesting thematic armies fielded by your opponents.

- While we expect this event to be competitive, please turn up with a good attitude and everyone will have a better time. The warfare Bolt Action

community is a friendly and open one: let's carry that into how we conduct ourselves during games we prefer a fun setting.

- All forces are expected to be fully painted and based:

All models should clearly depict whatever unit choices they represent (no unrealistic proxies).

- Prizes will be awarded for painting/theming and sportsmanship to reward outstanding effort in these areas.

## EVENT OVERVIEW

### Army lists

- 14 order dice cap.  
.1000 pt
- Forces may be built from upto **Two reinforced infantry platoon, no armoured platoons** remember that some larger artillery pieces require tows to move (and therefore, to enter the board in some missions).
- **Generic reinforced platoons or theatre selectors** are allowed, but may not be mixed within the same force.
  - Pick a nation from any of the forces currently represented in Warlord Games publications: the 'Armies of...', Theatre and Campaign books and any official PDF lists.
  - Special Characters, Crew Experience, War Reporters and Warplanes will not be used in the event.

## Missions/games

All missions in the event will be taken from the main Bolt Action 2<sup>nd</sup> ed rulebook and will be announced on the day. A new mission will be played across all tables in each round. Bear in mind that some missions are won by killing units, while others require players to attack or defend certain objectives: make sure your force can cope with these varied demands (for instance, high numbers of low-cost units will be good for spreading out to claim objectives, but will potentially be a liability in missions where an opponent gets points for unit kills).

- All games will last 2 hours.

# Warfare 2022

- A five-minute warning will be given before the end of each round: no further turns may be started after this point and games end if all dice are drawn from the bag.
- Once final time is called for the end of the round, all games must end and no further turns are to be played: resolve the current order dice and end the game, judging victory conditions as the game currently stands.
- Each table will feature a secondary objective. These will be fixed markers, and placed by the tournament organisers prior to each round beginning. This objective awards an extra tournament point for a player who controls it at the end of the game (not to be confused with victory points to win a particular mission). A secondary objective is won if you have an infantry or artillery unit in base contact with it at the end of the game and your opponent does not. Secondary objectives help to divide the pack when it comes to looking at the tournament standings at the end - and also give players an extra focus during missions (even if you're losing the main mission, you could still go for the secondary).

It is our intention you should play all games on different tables, however the finale game potential 1<sup>st</sup>-4<sup>th</sup> will play on table 1 and 2 as these are the prime tables.
