Armies and Restrictions:

All Factions are permitted with only the following restrictions for list building:

- 40 Points!
- 2 List format, as is standard for traditional events.*
- Both lists must be different commanders with at least 2 different units (1 Combat & 1 NCU minimum).
- It is recommended that players try to run very different ones and use both on the day, but this is not a requirement.

2-list format is where you make two army lists, and decide before each game which list to use in that game based on your opponent, you both get to see each other's lists and choose in secret before deployment

***All lists will be checked prior to the event by the TO who reserves the right to deny any list that they feel is "un-sporting" or does not follow any theme of the event.*

What You Should Be Bringing:

- Your Miniatures for both lists. (painted is NOT mandatory but is recommended).
- Full and in-date Tactics Decks for both lists, you can print these from the official Website. <https://asoiaf.cmon.com/>.
- Dice (D6), Ruler (Inches) and 2d Terrain, Tokens, This should all be official as it all comes in the starter sets but replacements can be provided if needed just speak to a TO.
- Objective Card Decks (Both the Effects and Secret).
- Tray for army transport during the day (highly recommended for moving between games and tables).
- A Gentleman's (or Lady's) attitude to great day of toy war!

Army List Submission:

Players will need to submit them via [ASOIAF Stats \(asoiaf-stats.com\)](https://asoiaf-stats.com/), create an account if you have not already done so This Online Web tool is also used to record your games, stats and tell you who you are playing in the next game and on which table etc. you can save the webpage as an app to your mobile device for ease of use.

Once submitted you may get a confirmation on if your list is okay or if any minor changes need to be made.

Deadline is Thursday the 13th November at 11.59pm, Lists will be locked and then give the organisers time to look at lists and players to edit if required, but also for you all to spy on your opponents and begin your private planning and strategy.

Please Email DLSWargaming@outlook.com if you have any questions or need any assistance.

The Games:

The following Scenarios will be the ones that shall be used on the day as they are in the main rulebook.

Game 1: Game of Thrones

Game 2: Dance of Dragons

Game 3: Winds of Winter

Awards:

The day will consist of 3 games, using Stats.Com tournament scoring system on a variety of tables with awards at end of the day given for the following categories, and others depending on player count and tickets sold.

- 1st, 2nd, 3rd Places
- Best Painted Army (As Chosen By Player Vote)
- BOHICA (Last Place) - *"Bend Over, Here It Comes Again"*
- Heroic Last Stand (TOs Best In-Game Moment)

Tournament Special Rules:

The following Rules are being imposed upon the entire tournament in the interest of theme and a good experience for all involved for a well-rounded and overall good time with minimal "Feels Bad" moments.

- All Terrain is to be Randomly Generated as per the rulebook. (re-roll any player choice result)
- Both lists must be used at least once, failure, will result in disqualification and a mandatory event "Booing".
- Discuss with your opponent your units and their abilities as you deploy them, I know we can see each other lists, but it just helps newer players and those who may not have good "APP Service".
- Fill the score submissions together and double check them, I find it easier to fill in throughout the game as you go.
- If a range is like a few millimetres out, then it is recommended that it counts as "IN". Miniatures and terrain do get knocked from time to time, just be a good sportsman, People, Animals, Arrows or Rocks don't just stop dead.
- Do not be offended if any player asks to check a rule in any way from either yourself or a TO.
- Always check the rulebook first, TOs will tell you to do that first in any case and are there to solve interpretations.
- Fully painted armies are not required however, all miniatures must be either official or clear representations.
